### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance.

These comments are made in addition to the remarks in Applicant's specification and arguments, concerning the manner in which the invention distinguishes from the art discussed therein. Additionally, allowance is further based on the allowance of parent case 09/402,750, now US 6,392,863 B1. The Examiner notes that the prior art does not disclose or suggest the claimed combination including particularly a banknote validator having a non-return gate which prevents a banknote from being removed after it passes said non-return gate thus preventing use of tethered banknotes to fraudulently receive credit from the validator. Further, in conjunction with this structure, a reversible driving means is caused to reverse if a banknote is identified as being unacceptable before the banknote has cleared said non-return gate, with the banknote returning back along the same banknote insertion path. The prior art lacks this structure or anything equivalent to it.

The foregoing is an Examiner's Statement of Reasons for Allowance.

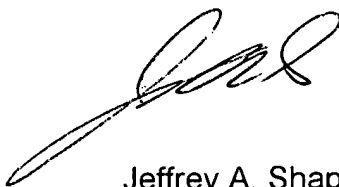

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
